## **WEATHER TIGHTNESS WARRANTY APPROVED**

Our SS150 roof system lends variety to any structure. The 1 1/2" mechanical seamed panel can be installed on a range of slopes, from lower slopes to curved barrels to wall panels and anything in between. Depending on application, fixed or floating clips can be used with hidden fasteners that help the panel with expansion and contraction due to thermal movement allowing this system to be installed over multiple structural substrates. Incorporate any of our production options to enhance your next project's appearance showcasing its architectural beauty.

### **IDEAL APPLICATION FOR COMMERCIAL + RESIDENTIAL**

## PROFILE OPTIONS

- Single lock panel
- Double lock panel
- Radius panel (single or double lock)

## PRODUCTION OPTIONS

- Factory made or field rolled to exact lengths.
- Optional: striation, flat panel, clip relief

## INSTALLATION

Can be installed over steel decking with Polyiso, or plywood decking with high temp ice & water shield.

## SLOPE

Recommended minimum slope 2:12

Panels have demonstrated compliance with UL580, Class 90.

**Product Description:** Ultra-Clad pre-finished metal features Dura Coat Durapon 70% full strength PVDF paint finishes formulated with Cool technology. This high performance product provides the ultimate in resistance against fading and weathering. In addition to our standard colors, custom colors are also available upon request.

**Color Samples:** Colors shown represent the actual colors as accurate as modern printing technology will permit. Colors represented on electronic charts may not match actual material. All colors should be verified using actual metal samples. Mismatch of electronic color representation and actual material shall not be accepted as a cause for rejection. Free metal samples are available upon request.
